

Invented for Life

Built-in & Freestanding product brochure 2023

Who are Bosch?

For over 130 years, the Bosch name has been synonymous with engineering excellence. Our home appliances are renowned for their quality, reliability and performance which derives from our inherent, unflagging commitment and the painstaking thoroughness with which every unit is made. As you would expect from Bosch, there are no gimmicks or frills with our products - just pure, clean lines and beautiful, functional simplicity that will enhance any kitchen.

Follow us to learn more on:

"I have always acted according to the principle that it is better to lose money than trust. The integrity of my promises, the belief in the value of my products and in my word of honour have always had a higher priority to me than a transitory profit."

Robert Bosch, 1921

The values that shaped Robert Bosch's vision for his new company in 1886 are the same principles that guide the business today; never lose the trust of your customers, look after your staff and partners and change things for the better. It's what has kept Bosch at the forefront of the home appliance industry and what will keep it there in the future.

Bosch Customer Service

Customer Service

Trust Bosch Customer Service to help you with the following:

- Troubleshooting support and arranging a repair for your Bosch appliance
- Accessing your Bosch appliance's instruction manual and other documentation
- Registering your Bosch appliance and extending its warranty further
- Locating and purchasing spare parts, accessories and care products
- Support with product advice and choosing a new Bosch appliance

Visit us online at:

UK: www.bosch-home.co.uk/customer-service Ireland: www.bosch-home.ie/customer-service

Call us on:

UK: 0344 892 8979 IE: 01450 2655

Our contact centre is open Monday to Friday between 8am and 10pm, Saturday and Sunday between 8am and 6pm, and Bank Holidays between 9am and 4pm. Calls are charged at the basic rate. Please check with your telephone service provider for exact charges.

Online Help and Support

You can visit our website for help and support with appliance troubleshooting, usage and maintenance, installation, getting started, helpful videos, and more.

Visit us online at:

UK: www.bosch-home.co.uk/customer-service/get-support Ireland: www.bosch-home.ie/customer-service/get-support

Repair Service

Our trained and qualified engineers repair large Bosch appliances at your home and small Bosch appliances in our workshop, and they are based locally around the UK. In some areas of the UK we use selected and approved service partners to carry out repairs on our behalf.

You can book a repair by calling our customer service team or alternatively you can book a repair online.

Visit us online at:

UK: www.bosch-home.co.uk/customer-service/repair-service Ireland: www.bosch-home.ie/customer-service/repair-service

Warranty

All Bosch appliances are supplied with a Two Year Manufacturer's Warranty as standard, but did you know that you can also extend this warranty to a total of five years for added peace of mind with the Bosch Extended Warranty?

Leam more about your appliance's warranty and options to extend your warranty by speaking to our customer service team, or visit our website for more information.

Bosch appliances with Home Connect are designed to fit seamlessly into your regular daily routines, providing you with an easy solution to getting the most out of your appliances and giving you the comfort of control and monitoring from wherever you are.

Whether that be automatic replenishment, the help of an in-built expert to choose what cycle is best for your clothes and the environment, or voice control when your

hands are busy. Home Connect is the ticket to ultimate personalisation.

When all is said and done

Use voice control with Alexa or Google Home, the quicker and more convenient way to get things done. Great for multi-tasking, when you're away from the kitchen or when your hands are full.

Why not try the app? Experience it yourself: download the free Home Connect app and try Home Connect, even if you don't have an appliance.

Personalise your control

comfort of your sofa via your

smartwatch, phone or ask for

updates using voice control

with Alexa or Google Home.

Monitor the progress of

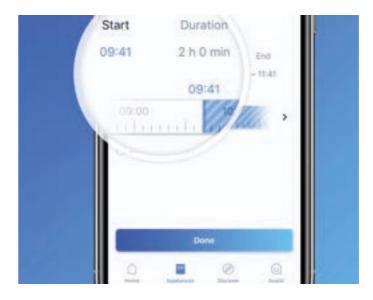

your washing from the

Simple to set up, simple to use.

There's no need to worry if you're not a technical genius. We've made sure Home Connect is simple and straightforward to set up. If you do need a helping hand, you can call our Customer Service team on: **0344 892 8979** or email **service.uk@home-connect. co.uk**. You'll find the Home Connect app just as easy to use. Find an intuitive layout and lots of useful app articles to get the most out of your appliances and learn new skills.

Look out for the Home Connect logo for more information on Home Connect features

Never run out of dishwasher tablets again

Avoid running out of dishwasher tablets by linking your dishwasher to the Smart Finish service and automatically receive your tablets to your door when you're running low.

As an added bonus you'll also receive a free dishcare bundle when you first sign up.

415

Relax - we're invented for life.

Home Connect uses the same security protocol as online banking, so you can enjoy extra peace of mind when you're using your Bosch appliances. Our app has TUV Trusted App certification, and all of our Home Connect appliances are Wi-Fi certified by the Wi-Fi Alliance.

Home Connect

Optimise your energy usage with Home Connect

The Home Connect app can help you be energy efficient. Use Home Connect, your voice assistant or smartwatch to control the start time of your appliances down to the minute, so you can avoid using energy at peak times and wash your dishes for less*.

*Cost will depend on your energy provider and contract. Available on selected models only.

Making life easy through innovative technologies

Introducing the Bosch oven range

Whatever kind of cook you are, we have a range of smart and stylish built-in single or double ovens for you to choose from. Serve up vitamin-packed meals using one of our innovative added steam ovens or, if limited on space, our easy-to-use microwaves and compact appliances will bring style and function to any kitchen.

Series 6

Simple elegance meets superior

technology. Series 6 ovens give you

more than just convenient operation

suit different foods, now available in

and modern functionality. Easy to

use with various programmes to

stylish all-black design.

All new Bosch Series 8 ovens are launching Summer 2023.

Ovens

8|9

Perfect Steam

A precise sensor constantly measures the humidity level of your dishes and automatically regulates the steaming process. You'll never have to adjust the heating mode, cooking time or temperature again. Perfect Steam does it all.

Steam Function Plus

The new Steam Function Plus steams at a temperature of up to 120°C, your dishes are done faster and retain even more of their vitamins and nutrients.

PerfectBake

PerfectBake sensor offers precise sensitivity and constantly measures the moisture level of dishes, as well as automatically regulating the baking process.

PerfectRoast Meat probe

Three highly sensitive measuring points determine the core temperature of your food to the exact degree, guaranteeing perfect roasting results and taking away the guesswork. (Available in selected Series 8 models only)

000

Air Fry Function

Use the Air Fry Function for healthier and tastier meals. Almost no oil is needed, leaving your dishes crispy. Perfect for anything from vegetables to poultry. Recommended with Air Fry & Grill Tray.

Pyrolytic Cleaning

Heats the oven to around 480°C, which reduces dirt and grease deposits to dust that can be easily wiped away. (Available in selected models only)

Soft open & soft close

A special damping mechanism prevents oven doors from slamming shut. As you gently push the door shut, it stops just before closing and then shuts itself gently and quietly, thus guaranteeing a long life for both your oven and the oven door

Level independent Telescopic Rails

Designed to clip to the standard factory fitted shelf support rails, that come as standard on selected models, they can be positioned independently on any of the 5 oven shelf positions in the main cavity in our Series 8 ovens.

Oven assistant

Find the perfect cooking programme, settings and duration for your dish every time with Home Connects Oven Assistant. Ensuring your meal is cooked to perfection with optimised energy use.

• = yes - = no ¹ Measured according the EN50304, 65/2014 ² For further information on inverter technology, please go to www.bosch-home.co.ukhttps://media3.bosch-home.com/Documents/MCDOC03402966_BOSCH_microwave_details_19.pdf For Inverter models, the maximum setting directs a time limited boost option for heating liquids. To ensure optimal results and to protect the appliance, the microwave power output is reduced in stages over the first few minutes down to the next power level (600W). After a cooling period, the microwave boost option will be available once more.

Overs with integral microwave — When teamed with a single oven, Bosch compact ovens with microwave offer a great alternative to a double oven if you require more space for traditional cooking. Designed first and foremost to function as an oven, with construction, features and functions identical to a traditional single oven, these models benefit from the addition of microwaves at low medium power (max 360W) to deliver oven-led combination cooking, which speeds up the cooking process while retaining traditional cooking results. Microwave Combination Ovens — These models are designed to provide more functionality than a solo microwave oven, focusing on combination cooking, with the microwave using higher power (max. 600W) to lead the cooking process, supported by Hotair or grill functions to deliver speedy crisp and browned results. Based around a more traditional microwave models offer the perfect solution if required. These models are designed to operate best in combination mode, so when heating using microwave only, it may be necessary to adjust cooking times.

Smart Coffee Centre.

Your very own barista.

When you take your coffee seriously, your coffee machine needs to be seriously impressive. With the Home Connect enabled Coffee Centre, you get your very own virtual barista, skilled at producing delicious coffees from all over the world.

Using Coffee World, built into the Home Connect app, you are able to create almost twenty superb drinks and international favourites at the touch of a button. Your kitchen becomes your new favourite coffee shop.

Playlist.

Making drinks for lots of people? There's no need to memorise the list. Simply use the

Home Connect app Coffee Playlist and get

everyone to select their favourite drink.

Your coffee machine will make them all, one by one, at your command. You can even add selections from the Coffee World for added luxury.

Pair with a Bosch warming drawer for seamless design next to a full-sized single oven.

Built-in Coffee centre 22 | 23

Your coffee, your way.

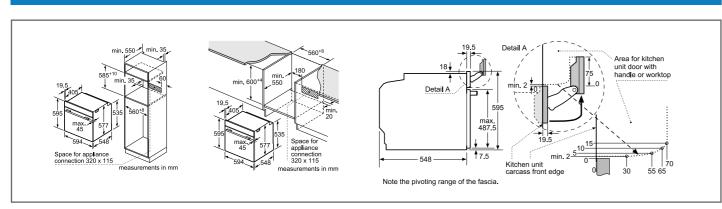

Replicating your perfect cup of coffee can sometimes feel impossible. Home Connect now makes getting the perfect coffee easier than ever. Simply save your perfect coffee as a favourite in the Home Connect app to access it in one touch from your Smartphone or Smartwatch. Then sit back and let the machine take over. Treat yourself to the cup of coffee you know and love.

Introducing the Bosch hob range

As you would expect from Bosch, all our electric hobs are made using high quality materials, are easy to use and add contemporary elegance to any kitchen.

To help you choose the right electric hob for your home we have divided them into the three ranges below.

Series 6

control

Expect excellent operation and

timeless designs with our Series 6

engineering and materials, so that you

with the easy to use DirectSelect touch

range of hobs. You'll get premium

can always cook something a little

bit special. Get ultimate control

TO FIND OUT MORE ABOUT OUR BOSCH INDUCTION HOB RANGE, PLEASE SCAN THE QR CODE BELOW:

Venting hobs range

The Perfect combination.

To give you more freedom and flexibility in designing your kitchen, we've developed hobs with an integrated ventilation module. These hobs combine the latest technologies of our induction hobs and cooker hoods in a single appliance. The integrated ventilation module extracts steam and odours at their source.

The **Series 8 PerfectAir** venting hob removes odours from the source, leading to fewer cooking smells in the kitchen. It can be easily installed into the work surface to suit any kitchen design and has the added convenience of being easy to clean. Thanks to the **PerfectFry** sensor and **PerfectCook** sensor on the hob, you can achieve perfect results whether you're frying or boiling.

For more information on types of installation for Venting Hobs, please see pages 46 & 47.

Now your cooker hood can automatically control the air that you breathe.

PerfectAir is our advanced feature that clears the air without you having to do anything. A sensor constantly detects the levels of cooking odours in the air and adjusts the power level – from light use to intensive – to ensure your kitchen air is always clean and fresh.

Check model for available functions.

Model shown: PXY875KW1E

Our Series 8 range of electric hobs

combines convenience and elegant

design, allowing you to select

individual cooking zones and

power levels. All controlled at

just the touch of a button with

DirectSelect Premium control

the modern touch control, TFT or

Series 8

PerfectFry: Our clever Frying Sensor measures the temperature in the pan for perfect results.

PerfectCook: Control your cooking by the temperature in the pan rather than the power level with our smart Cooking Sensor*, which easily attaches to the side of your induction pot.
 *This feature requires the additional purchase of a Cooking Sensor to operate.

Power Boost: This function allows you to increase the power of the cooking zone by up to 50% - perfect for large pots and pans or when you're in a hurry.

Automatic pan recognition: Only heats up the base of the pan and not the rest of the zone, which doesn't waste energy and leaves the rest of the hob cool to touch.

Freeze: In case of any spills, the function freezes all the heat settings so you can thoroughly wipe and clean the hob surface. To restore the previous heat settings simply touch the button again!

TFT-touch display: Clear text and pictures allow simple operation of the integrated touch display.

Assist: Automatic setting of the ideal power level recommendation and cooking time for countless dishes.

Flex Induction Zone: Get more flexibility by combining the cooking zones into one big zone for placing small pots and large cookware. The amount of usable surface on the hob is maximised to accommodate even the largest of cookware, including griddle plates and Teppan Yaki.

Series 4

style.

Featuring a range of Series 4 electric

hobs that are convenient and simple to

operate, our essential range maintains

classic design with contemporary

Combi Zone: Two cooking zones can be linked, making the switch from small to large pans effortless.

Move Mode: Automatically switches from boil to simmer with a simple slide of the saucepan.

Hob-Hood Control: Convenient operation of the hood via your hob. Hoods with Home Connect will automatically turn on or off and increase or decrease in extraction level based on cooking needs, food smells and vapour.

Child Safety: The built-in lock function locks the surface of your hob and prevents it from being used accidentally, giving you the highest level of safety.

DirectSelect: Set the correct temperature with a single touch. No more scrolling up or down, just simply press one button to select the right heat level. Models with **DirectSelect Premium** touch controls feature an additional minimum temperature setting giving you added cooking control.

Hobs

28 | 29

Gas hob range

Welcome to intuitive cooking. The advanced technology built into our hobs makes cooking on gas simple and precise. Understanding how you cook means we've been able to design a FlameSelect feature that lets you fry, stew, steam and boil with confidence – without constantly checking the flame.

Series 6

Design match

If you want a selection of cooking options within your kitchen, this can be realised with a combination of our worktop cooking appliances. You can select everything from our great range of Induction, Ceramic or Gas hobs and then combine with one of our range of Induction, Ceramic or Gas Domino hobs.

Gas Domino Hobs

PRA3A6B70

PRB3A6B70

These hob appliances can be arranged side-by-side to create a larger cooking surface area, or positioned on their own to create a separate cooking space. Ideal for smaller kitchens that do not have the space for large hobs.

TIP: Ensure your extractor hood is the same width as the worktop appliance you choose.

A touch of the Orient

Powerful, dual ring wok burners are perfect for oriental cooking. They deliver a boost both in power and speed, but can also be used very effectively at lower settings when required.

Our **Series 8** range of gas hobs combines convenience and truly elegant design with ultimate cooking control, meaning a truly professional performance in the kitchen.

Series 8

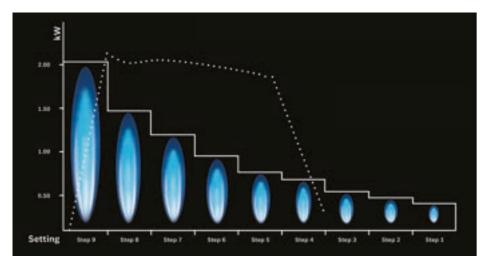

Expect excellent operation and timeless designs with our **Series 6** range of gas hobs. You'll get premium engineering and materials so that you can always cook something a little bit special.

Series 4

Featuring a range of gas hobs that are convenient and simple to operate, our **Series 4** range maintains classic design and style.

The Select Gas without the guesswork.

The gas cooktops with Flame Select are equipped with nine precisely defined power levels which let you adjust the required heat easily and reliably. For simply perfect cooking results.

Flame Select

We're taking the guesswork out of using a gas hob. Our innovative Step Valve technology regulates the gas output precisely, so you're able to choose the size of flame. With an easy-to-use setting, all you need to do is decide which of the 9 power settings you want. At last, Flame Select gives you the confidence to cook on gas without leaning down to check it.

Explore more at bosch-home.co.uk / bosch-home.ie

Gas hob functions explained.

Check model for available functions.

Flame Select: A precise adjustment of the flame in nine defined levels.

Wok burner: Powerful cooking at up to 4 kW.

Standard and semi-flush built-in option: Choose between flush or surface mounted installation.

Tempered-glass surface: Elegant design and easy cleaning.

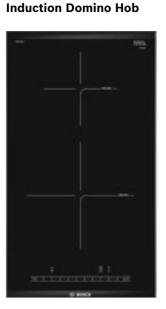

Continuous cast-iron pan support: For high firmness and stability of cookware.

Standard gas hob valve power output.

Flame Select valve power output.

Ceramic Domino Hob

PIB375FB1E

PKF375FP2E

Smart design

Square design pan supports don't just look good, but provide more stability for pots and pans. Cleverly designed to fit together, they are separate pieces, which make them easy to handle and clean. The elegant tempered glass base allows for a choice of surface mounting for quick and easy installation, or flush mounting.

Domino hob accessories

Introducing the hood range

Offering a blend of function and form, Bosch hoods deliver quiet, effective extraction that makes the kitchen and home a more pleasant environment. Make a bold design statement or complement a more minimalist look.

To help you choose the right hood, we have divided them into four ranges.

A hood for every kitchen

Wall-mounted

Wall-mounted cooker hoods are generally mounted above the hob, on the wall between the wall units. This type of cooker hood fits beautifully into the line of your kitchen units whilst providing effective ventilation that you'll barely see – but you'll notice the amazing effect. These feature the Bosch clip which can be matched with other Bosch appliances in your kitchen.

Box Chimney Chimney hoods in a box design perfectly complement your hob installation.

Curved and flat chimney hoods are great for a traditional and stylish kitchen.

Series 8

With our **Series 8** range of hoods, experience automatic extraction rate control with **PerfectAir** sensor technology. Our hoods offer high quality craftsmanship combined with cuttingedge technologies to make the kitchen a more pleasant environment.

Series 6

Ultimate convenience and tasteful design make cooker hoods within our **Series 6** range an asset to any stylish kitchen. Electronic controls give you ease of use. Experience maximum operating convenience with **DirectSelect** touch controls from Bosch.

Series 4

As the centre of family life, the kitchen needs to have a comfortable atmosphere free of cooking steam and disruptive noise. Our **Series 4** range of cooker hoods are extremely quiet, easy to operate and impressive with their modern design.

Series 2

With our **Series 2** range of hoods, you can be assured of high quality design and features that make your life easier in the kitchen, such as easy-to-use controls and dishwasher proof metal grease filters for greater convenience.

TO FIND OUT MORE ABOUT OUR COOKER HOOD RANGE, PLEASE SCAN THE QR CODE

BELOW

Hood functions explained.

Check model for available functions.

🔏 🛛 PerfectAir

A sensor constantly detects the levels of odours in the air and adjusts the power level – from light use to intensive – to ensure your kitchen air is always clean and fresh.

☐ Hob Hood Control

Control your hood via your hob with Hob-Hood Control on selected Bosch hoods. The hob and hood connect directly with WiFi and as soon as your hob is turned on, your hood lights will come on and it will start extracting. Pair this feature with the **PerfectAir Sensor** in automatic mode to create a fully automated ventilation solution.

<u>
</u>

Clean Air Plus Filters

Our Eco Silence Drive brushless friction-free motor is durable and designed to last longer. The motor helps to keep sound levels low while delivering highly efficient and powerful performance*, ultimately saving you energy. *Sound power measured according to EN60704-3 on largest pipe diameter.

Eco Silence Drive

Our Eco Silence Drive brushless friction-free motor is durable and designed to last longer. The motor is highly efficient and offers exceptional performance while saving you energy.

LED lights

Our energy efficient lighting can be adjusted for bright illumination to work under, or lower illumination for ambient mood lighting in the kitchen thanks to the dimmer function.

Touch Control

Your gues

Your guests are not alone in appreciating a relaxed cook. So you can chat with your guests while cooking.

Easy mounting

Easy to install appliances give you another reason to choose a Bosch Hood.

Filter Saturation Indicators

Out of sight, out of mind: when it comes to the filters in our hoods we often forget to check if they need to be changed. With Home Connect you can now check the state of your hood's filters, and receive valuable maintenance information. Simply log onto the app* to check the carbon and grease saturation of your filters and whether a replacement is necessary.

Selected models only

Flat Slimline This slim design is perfect for keeping an eye on your pots and pans with a stylish control wheel that matches with Bosch Series 8 ovens

Ceiling

Plug&Play

Angled Glass

ease

Island Chimney

Our Island cooker hoods have been specially developed for use over your kitchen island and are freely suspended from the ceiling above it.

Integrated

Bosch canopy cooker hoods are powerful ventilation systems that can be integrated into the cabinets above your hob. The hood provides excellent extraction of steam and cooking smells, as well as providing additional lighting for your cooking surfaces.

Telescopic

Telescopic cooker hoods are installed into a wall unit. To operate them, the flat section is pulled out, enlarging the extraction surface. Selected models have easy installation systems and accessories are available, as well as a lowering frame to make the hood invisible when not in use. 52 | 53

Pyramid Chimney Pyramid hoods impress with classic lines and the refined contours of the contemporary Slim Pyramid designs.

The angled design doesn't restrict headroom so you can keep an eye on your cooking with

Integrated Design Hood Flush Integrated design with fold out glass panel, make these hoods the storage champion. Allowing 10kg storage each side of the chimney on the hood, discreetly hidden in kitchen furniture.

Plug&Play ceiling hoods are an easy installation option. Fixing to an existing ceiling and recirculating the air back into the room, saves the need to build a false ceiling.

Ceiling

A flush fit ceiling cooker hood is normally installed into a false ceiling. It not only ensures clean air, it also provides excellent lighting for your hob and creates more space in island kitchen cabinets.

Integrated

Integrated cooker hoods have a furniture panel mounted to them installing seamlessly into the kitchen. For use this front panel is pulled forward at an angle, only then making the hood visible.

Built Under Great performance in a tiny space. Our built-under extractors are housed underneath the kitchen unit and can always be seen.

¹ Power automatically reverts back to normal setting after intensive.
 ² Air Flow and noise declarations made in line with CECED Code of Conduct.
 ³ Measured according to EN61591 on largest pipe diameter.
 ⁴ Sound power measured according to EN60704-3 on largest pipe diameter.
 ⁵ From top of pan supports.
 ⁶ A type of recirculating kit is required if recirculating. Depending on the model, a 'Recirculating odour filter kit' will consist of the following items: Charcoal filter, flexible hose, air duct, fixing components, installation instructions.

rom top of pan supports.

⁶A type of recirculating kit is required if recirculating. Depending on the model, a 'Recirculating odour filter kit' will consist of he following items: Charcoal filter, flexible hose, air duct, fixing components, installation instruction

All models comply with COMMISSION REGULATION (EC) No 1275/2008 with regard to ecodesign requirements for standby and off mode electric power consumption

Ducted or recirculation mode?

Ducted extraction

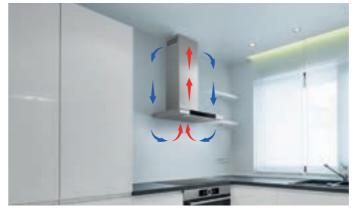

Ducting out is the most effective method of extraction if the hood can be sited on an outside wall, or an outside wall can be reached via ducting. The main difference between ducted and recirculation cooker hoods is that ducted systems can extract steam and odours, as well as grease. All our extractors are now standardised to a 150mm diameter outlet for easier installation. Use of 120/125mm diameter ducting is also possible, but will result in reduced air flow and increased noise. Use of 100mm diameter ducting is not recommended.

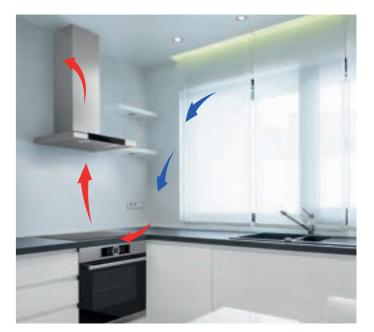

The following points should be observed for optimum ducted extraction results:

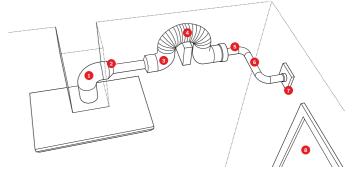

- 1. Ensure any pipe elbow bends are at least 30cm from the hood ducting opening.
- 2. Avoid reducing the diameter or area of the ducting.
- 3. Use wide-angled pipe elbows, but keep the number used to a minimum
- 4. Only install pipes with smooth, even inner surfaces. If a flexible hose has to be used, ensure it is pulled tight to smooth out the ridges before fixing.
- 5. Avoid reducing the diameter or area of the ducting.
- 6. Use ducting pipes with a diameter of at least 120mm, but ideally 150mm.
- 7. Keep piping to a minimum use the most direct route to external outlet.
- 8. Make sure that there is an adequate supply of fresh air to replace the air ducted out of the kitchen i.e. windows that can be opened, doors to adjacent rooms, air bricks.

Recirculation kit

Cooker hoods with recirculation are energy-efficient and much easier to install. Air is passed through the metal filter to extract the grease and then through a special charcoal filter, which removes odours and in high perfomance Clean Air Plus filters also removes over 99% of pollen*. The purified air is then returned to the room. As no ducting openings are necessary, this is an energy-efficient method of extraction as no energy can escape (i.e. cool air in the summer or warm air in the winter), making it a good choice for low energy houses. The kit contains all you need to set the hood up for recirculation and installation is relatively easy. Check each model for details on the appropriate recirculation kit accessory. *Ambrosia-Pollen following test procedure ISO/TS 11155-1.

Problems with installation may occur if points 1 to 8 are not observed.

Tips and hints

- 1. Calculate the extraction capacity needed.
- 2. Choose a hood with at least the same width of your hob.
- 3. Ensure efficient pipe ducting installation.
- 4. As a guide the hood should be installed at a minimum of 65cm above a gas hob or 55cm above an electric hob.
- 5. To effectively remove cooking odours from your kitchen, switch the hood on 5-10 minutes prior to cooking.
- 6. Leave the hood to run at a low setting after cooking has finished for 5-10 minutes to remove any lingering odours. Or simply select the Automatic After Running function, which enables the hood to continue running at a low speed for 10 minutes before automatically turning itself off (available on selected models).
- 7. Regularly clean metal grease filters to ensure optimum extraction performance. All of our metal grease filters, brushed steel filters and rim ventilation filters are dishwasher-proof.
- 8. Choosing the correct extractor. As a guideline, the air in the room should be changed 6-12 times per hour. Calculate the floor area in square metres and multiply by the height of the room in metres. Then divide the maximum extraction rate of your chosen hood by the figure calculated above. The resulting figure should be at least 7, but preferably as close to 12 as possible.

Example

Kitchen (H x W x D) metres 2.1 x 4.5 x 4.2 = 39.7m³.

Assume a maximum of 12 air changes per hour – multiply 39.7m³ by 12 = 476m³/h. Choose a hood capable of extracting at least this amount of air per hour - e.g. DWB96DM50B (max ducted extraction rate intensive 580m³ per hour).

Installation tips

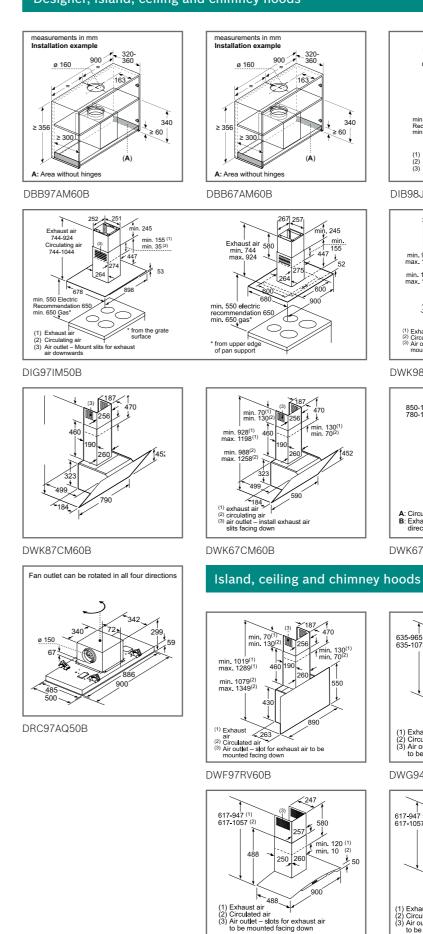

Hoods Keep air fresh and free of cooking smells Extractor hoods are an integral part of a clean and fresh working kitchen environment. Not only do Bosch extractor hoods look good and add a professional touch to your kitchen, they also deal quietly and efficiently with the key tasks of eliminating unwanted odours and removing grease and moisture from the kitchen. Chimney extractor hoods Choose between wall-mounted models or an island version to create a striking focal point in the kitchen. Some models are further enhanced by glass canopies. Available in the following sizes: 60, 75, and 90cm wide. Chimney extractor easy mounting system Installing your new cooker hood in the kitchen is quick and straightforward with the patented easy mounting system. The self-levelling fixing rings allow you to precision adjust the horizontal position of the hood by up to a 6mm radius. **Telescopic extractor** Ideal where an unobtrusive extractor is required. Built into a wall cabinet above the hob, it can be extended when in use, and retracted when not. Use the special handle profile accessory, or if you prefer, a matching pelmet from your kitchen supplier. Available in the following sizes: 60 or 90cm wide. Conventional extractor hoods Ideal where space is at a premium, these 14cm tall extractors can be mounted directly to the wall or suspended beneath a reduced height wall cupboard. 60cm wide. Integrated extractor hoods Integrated extractor hoods are designed to be mounted between two cabinets with a matching furniture door affixed to the front. **Canopy extractor hoods** Designed to fit discreetly into the base of a wall cupboard, or specially designed furniture canopy with operation from below. Choosing the correct extractor As a guideline, the air in the room should be changed six to twelve times per hour. Calculate the floor area in square metres and multiply by the height of the room in metres. Then divide the maximum extraction rate of your chosen hood by the figure calculated above. The resulting figure should be at least seven, but preferably as close to twelve as possible. Example Kitchen (H x W x D) metres 2.1 x 4.5 x 4.2 = 39.7m³. Assume a maximum of 12 air changes per hour – multiply $39.7m^3$ by $12 = 476m^3/h$. 39.7m³ Choose a hood capable of extracting at least this amount of air per hour - e.g. DWB96DM50B (max ducted extraction rate intensive 580m³ per hour). To avoid excessive noise, try to select a model which meets the above requirements on an intermediate speed, rather than at the highest speed. $12 \times 39.7 \text{m}^3 = 476 \text{m}^3/\text{h}$ Quick checklist

Introducing the Bosch laundry range

Series 8

Perfection in every detail, our Series 8 range stands out from the crowd with superior quality, results and first-class design. Discover cutting-edge features and extras such as **i-DOS** automatic dosing system and targeted Anti Stain programmes to take the guesswork out of stain removal. Our 4D Wash function ensures highly efficient usage of water and detergent guaranteeing spotless results. Monitor and control your wash remotely with our Home Connect models, developed to give you complete control over your washing.

Series 6

Our Series 6 models offer advanced features to make life easier. i-DOS doses each load with millilitre precision, which not only delivers outstanding results but a host of savings. Speed Perfect allows you to wash up to 65% faster** without compromising results.

Series 4

Easy to operate with family in mind, our Series 4 range truly understands your requirements. Practical and straightforward to use, these appliances combine easy operation with stylish design. These models benefit from the Reload function, which allows you to open the door throughout most of the cycle so you can add or remove items at any time.

Energy and water-saving technologies across our latest laundry appliances give you peace of mind when washing and drying your clothes. To help you choose the right appliance, we have divided them into three ranges.

Model shown: WGB256A1GB

Washing machine functions explained.

Check model for available functions.

Vario Drum

Select the programme for your wash and the droplet-shaped drum structure and asymmetrical paddles will adjust the drum movements to powerful or gentle.

Eco Silence Drive™ Bosch Eco Silence Drive washing machines come with a 10-year motor guarantee.

his security gives you peace of mind that the water will stop in the unlikely event of a leak

J. i-DOS

i-DOS automatically senses exactly the right amount of detergent and water to use, as well as the correct temperature, whatever your load, adapting to the fabrics, level of soiling and weight of the load

Time Delay

Timer Have your laundry ready when you need it. Just delay the start of your programme with one simple button.

Capacity

Easy Start

Home Connect will pick the perfect programme for you. Simply input what you're washing and your requirements

Speed Perfect

Wash up to 65%** faster without compromising results. Speed Perfect can be used in combination with most other programmes, all loads and textiles.

4D Wash

A combination of the direct water spray and an extra spin wash enables the most efficient and effective use of water and detergent, even when the drum is fully loaded. Achieve spotless laundry results every time.

Intensive Plus

For heavily soiled laundry, sometimes additional treatment is needed. Intensive Plus gives a boost to your cleaning performance by adding an extra wash for approximately 30 minutes. Providing you with brilliant results even on the most challenging clothes.

Never miss an item again.

Reload function on Bosch washing machines allows you to add or remove clothing of any size to your washes. Simply pause the cycle and the machine will automatically adjust the water level to allow you to open the door. Reload your items and restart the wash.

Bosch integrated technology for a peaceful washing experience

Everythings just right with i-DOS

Once activated, the i-DOS system measures the detergent automatically, to the nearest millimetre. Sensors inside the washing machine detect the type of fabric, the load volume in the drum and the degree of soiling and adjust the detergent to the optimum dose accordingly. In this way, you'll achieve the best results for your clothes, whilst saving detergent and water.

1mm

i-DOS with Detergent Scan

Skip manual dosing and save detergent. Just scan your detergent with your Home Connect app and i-DOS will do the rest***

Iron Assist

your laundry. This extra steam

Mini load

up to 0.5kg more efficiently.

Laundry

Iron Assist makes ironing easier. It sprays a natural mist that permeates preheated textiles and visibly smooths treatment reduces or even eliminates the need to iron dried garments.

The mini load programme lets you wash single items or very small loads *Bosch washing machines with the 'Hygiene Plus' wash programme at 40° and 60° fulfill scientifically recommended conditions for 99,99% of germ reduction for Enterococcus Hirae and Pseudomonas Aeruginosa, according to Honisch et al. 2014, "Impact of wash cycle time, temperature and detergent formulation on the hygiene effectiveness of domestic laundering." Conducted by University Rhine-Waa

**Difference between the duration of Easy Care Programme 40°C and the duration of Easy Care Programme 40°C in combination with Speed Perfect option

Look out for the new energy efficiency class icons throughout our brochure and on our product page

Model shown: WGB256A1GB

Enjoy the quiet life.

The modern world is noisy enough, so it's good to know that Bosch technology can help make the home environment a little oasis of calm with our Eco Silence Drive™

The right wash for the right stain.

The Anti Stain Plus System easily removes up to 16 of the most stubborn stains, helping you to easily get perfect washing results. The washing machine automatically adjusts the temperature, drum movement and soaking time to meet the demands of the relevant stains before your chosen programme starts.

Less rock and roll.

We've also created Anti Vibration technology to cut down noise. The sidewalls of the washing machine feature a spiral design that increases stability and reduces vibrations. Improved sound insulation and low noise shock absorbers further dampen the noise.

Speed Perfect.

With Speed Perfect you can reduce your washing time by up to 65%** without compromising results. Speed Perfect can be used in combination with most of the programmes, all loads and textiles. For example, by selecting the mix programme in combination with Speed Perfect you can thoroughly wash up to 4kg of mixed load in just 41 minutes.

72 | 73

Freestanding tumble dryer range

Heat pump dryers from Bosch: for those who want to dry particularly economically.

Bosch heat pump dryers use an innovative heat pump component, which conserves and reuses the hot air to provide most of the energy needed for the next drying process.

With our condenser tumble dryers, there's no need for a hole in the wall.

With a condenser tumble dryer, the moisture extracted from the washing is collected in a container, so they don't need the typical air extractor hose that goes outside. All you have to do is plug it into an electrical outlet and switch it on.

Tumble dryer functions explained.

Check model for available function

Connected Drv

With Bosch Connected Dry enabled by Home Connect, detailed information from the last wash cycle is sent from the connected washing machine to the dryer. The dryer will then select the perfect programme for your load.

Auto Drv Auto Dry

With Auto Dry sensor technology you can ensure gentle and precise drying results. Auto Dry automatically knows when your load is perfectly dry by constantly measuring the humidity, protecting your clothes against overheating.

Timer Time Delay קק

Use the Home Connect app to delay the start/end time down to he minute.

Anti Vibration Design Anti Vibration Design

A spiral design on the side of all of our laundry appliances that increases stability and reduces vibration. This makes for a guieter machine with improved sound dampening.

Iron Assist

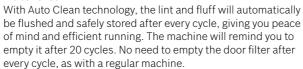

Bosch heat pump dryers with Iron Assist reduce or even eliminate the need to iron. A fine mist is created inside the drum which permeates the gently warmed contents and visibly smooths laundry.

Self-Cleaning Condenser E H T

The Self-Cleaning Condenser cleverly uses condensation water to automatically clean itself up to four times per drying cycle. This ensures maximum efficiency for the entire working life of the machine - so you'll never have to worry about the condenser again.

Auto Clean

15

Easy Clean

The Easy Clean condenser filter is simple to access and only needs cleaning after every 20 cycles.

The patented Self-Cleaning condenser cleverly uses condensation water to automatically clean itself up to four times per drying cycle. That ensures maximum efficiency for the entire working life of your tumble dryer.

Short on space? Have you considered a stacking kit? Please refer to compatibility list on page 88.

Connected Dry uses sensors to analyse the load of your washing machine to ensure your dryer automatically selects the ideal drying programme and duration for your clothes.

This will save you coming back to check if your laundry is dry and will use the minimum amount of energy for the load.

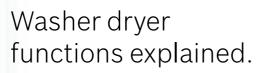

Freestanding washer dryer range

Want to wash and dry in one go? After the wash cycle, a washer dryer automatically switches to the chosen drying mode. No need to transfer wet laundry from one appliance to the other. For items you prefer air drying, just run the wash cycle. You can also use the appliance as a dryer, without washing beforehand. It's one machine for all your washing and drying needs.

TO FIND OUT MORE ABOUT OUR BOSCH FREESTANDING WASHER DRYER RANGE, PLEASE SCAN THE QR CODE BELOW:

Check model for available functions

Iron Assist makes ironing easier. It sprays a natural mist that permeates preheated textiles and visibly smooths your laundry. This extra steam treatment reduces or even eliminates the need to iron dried garments.

Auto Dry

With Auto Dry sensor technology you can ensure gentle and precise drying results. Auto Dry automatically knows when your load is perfectly dry by constantly measuring the humidity, protecting your clothes against overheating.

Wrinkle Guard

T

=(T)

10 kg Thanks to Wrinkle Guard you'll reduce the size of your ironing pile! The drum will continue to move dry laundry for a period of time after the cycle has finished, so clothes are cooled gradually and don't wrinkle when they are still warm.

Bosch Eco Silence Drive[™] washing machines come with a 10-year motor guarantee.

Speed Perfect

Wash up to 65%* faster without compromising results. Speed Perfect can be used in combination with most other programmes, all loads and textiles.

Capacity

Our freestanding washer dryers have a drum capacity of up to 10kg, perfect for those busy households. Wash and dry up to 6kg of items in one go or wash up to 10kg.

*Difference between the duration of Easy Care Programme 40°C and the duration of Easy Care Programme 40°C in combination with **Speed Perfect** option.

Model shown: WDU8H541GB

76 | 77

Convenience for small spaces.

Our washer dryers not only wash flawlessly, they also dry perfectly – all in one appliance. An ideal solution for people with high standards but not much space.

Wash & dry in one.

Now you can wash and dry a load thoroughly in just one hour. This programme is suitable for lightly soiled clothes and for washing and drying heat resistant textiles, such as cottons or linen.

Built-in laundry range

Effortlessly efficient, load after load. Our built-in laundry appliances are designed to perform perfectly, everytime. And our advanced technology means your clothes are cleaned effectively and efficiently.

Series 8

Perfection in every detail, our Series 8 range of laundry appliances stand out from the crowd with superior quality, results and first-class design. Clever features such as the Time Light take away the guesswork on the progress of the wash. Unique innovations combined with energy efficiency deliver outstanding performance.

Series 6 Our Series 6 range of laundry appliances offers a broad choice of

specialist programmes and deliver

convenience to enhance your lifestyle.

high performance and effortless

Series 4

Models within our Series 4 range combine practical features and Bosch quality in a consistent, value for money package.

Time Light.

sometimes it's hard to tell whether they are on or off, especially on fullyintegrated models where there is no visible control panel. The Time Light indicates the programme status and time remaining onto any floor surface.

Laundry functions explained.

Concernal States

Time Light

The time remaining on your cycle is projected onto the floor. You can also view the programme progress status.

Vario Drum

Select the programme for your wash and the droplet-shaped drum structure and asymmetrical paddles will adjust the drum movements to powerful or gentle.

Our washing machines with Eco Silence Drive[™] generate lower noise levels for quieter living.

Aqua Stop ******

This security gives you peace of mind that the water will stop in the unlikely event of a leak.

Bosch washing machines are so quiet

odel shown for illustrative purposes only

Simply pause the cycle and the machine will automatically adjust the water. This allows you to add or remove items of any size to your wash

Time Delay

Reload

Have your laundry ready when you need it. Just delay the start of your programme with one simple button.

Anti Vibration Design

A spiral design on the side of the washing machine that increases stability and reduces vibration. This makes for a quieter machine with improved sound dampening.

The programme cotton cupboard dry used at full and partial loads is the standard drying programme to which the information on the energy label refers. This is the most efficient programme in terms of energy consumption for cotton. Annual consumption is based on 160 drying cycles. Data valid in this table as of April 2023. Subject to modification without prior notice

Making **life easy** through innovative technologies

Introducing the Bosch dishwasher range

Our built-in and freestanding dishwashers offer a range of advanced technologies and additional options across the range to suit your individual requirements. To help you choose the right Bosch dishwasher, we have divided them into the four ranges below.

Model shown for illustrative purposes only

Series 8

Our Series 8 range combines cutting-edge design and advanced technology. The PerfectDry function absorbs moisture before releasing it as hot air for energy-efficient drying. Exceptionally quiet, offering additional storage and flexible loading solutions our Series 8 dishwasher is a perfect solution for busy households.

Series 6 Our Series 6 range comes packed with technology, from energy and watersaving modes to quick washes for when time is at a premium. They also feature our clever PerfectDry technology and handy features such as Max Flex baskets, Extra Space 3rd Basket, Extra **Clean Zone** and Efficient Dry.

Series 4 Our Series 4 range of models offers great value for money but does not compromise on Bosch build quality. They combine advanced energy and resource saving features. In addition, they offer Flex baskets and Max Flex baskets with foldable racks in the top and bottom baskets.

Series 2 Our Series 2 dishwashers offer you the classic design with easy operation. They are the optimal solution for anyone who wants a reliable appliance with good value for money.

Get more with Home Connect

Available on all dishwashers

To stay at their best, different dishes and glassware need to be washed in different ways. With the Bosch Home Connect app. simply tell your dishwasher what's in the load and it'll work out the perfect programme. Use your voice to start your dishwasher or even find out how long before your dishes are ready. You can even link your Home Connect-enabled dishwasher with the Smart Finish auto-replenishment service to ensure you never run out of dishwasher tablets again

Speed & Silence On Demand Intelligent Programme

Use your Home Connect app or Alexa to tell your dishwasher to be quiet or faster. Your dishwasher personalised to your needs.

Our new intelligent programme adapts itself for your maximum satisfaction. After 3 cycles, you will be prompted to leave your feedback on the cleanliness, drying or length of the programme, or you can do so manually after every cycle.

Programme Assistant

Use Programme Assistant to tell your dishwasher what it's washing and how you want it cleaned. Home Connect will then recommend the ideal programme, ensuring the optimum amount of water and energy is used every time.

CONNECT FEATURES, PLEASE SCAN THE QR CODE BELOW:

Drying options.

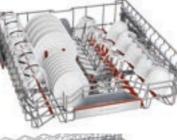

The dish dryer among dishwashers.

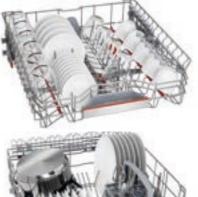

A clever function that dries everything to perfection. And we do mean everything - plates, pans, glasses and all plastic items. Everything will be completely clean and perfectly dry, so you'll never have to pick up a tea towel to finish the job again.

The technology behind **PerfectDry** (unique to Bosch), is called Zeolith[®]. It is a process applied to every cycle that uses naturally occurring minerals, that heat up when they come into contact with water. Clever Zeolith® beads transform humidity into warm air that speeds up the drying process. The warm air is then distributed evenly over the load.

So when you need a wash with brilliant drying results, it's time to choose Bosch

Choose the right basket flexibility options for your dishwashing needs.

Max Flex Pro Stainless steel fascias. Colour touch points as standard. Top rack flexible areas: 6 Bottom basket flexible areas: 8

Extra Space 3rd basket

New top basket providing more loading space for small kitchen items. With sliding elements and a removable knife inlay, the Extra Space 3rd basket offers more space than ever.

Extra Clean Zone

Extra thorough cleaning for heavily soiled items in the upper basket. This intensive zone doesn't need higher temperatures, it uses 3 jets to clean those stubborn items. So no more pre-soaking before going into the dishwasher!

Home Connect is a service offered by Home Connect GmbH. For more information on Home Connect please visi www.bosch-home.co.uk/bosch-innovations/ho

∭⁺ Extra Dry

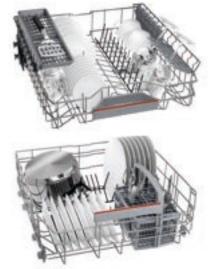

Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the Extra Dry option and more heat will be created to extend your load's drying cycle.

Automatically opens your dishwasher door, offering better drying results compared to a closed door (after 30 minutes). Select this feature via the Home Connect app, available on all programmes except pre-rinse and machine care

points. Top rack flexible areas: 2 Bottom basket flexible areas: 6

Flex

Grey plastic fascias. Top rack flexible areas: 2 Bottom basket flexible areas: 2

Glassware support with smooth gliding baskets

New anti-slip elements and stemware support within the upper basket will give extra protection to all glassware. Baskets will glide effortlessly along the internal brackets, thanks to our new pull out systems.

Dishwasher functions explained.

Check model for available functions

Extra Dry \$<u></u>

Want your dishes extra dry? No problem. This function gives you even more drying power when you need it. Just choose the Extra Dry option and more heat will be created to extend your load's drying cycle.

PerfectDry

PerfectDry uses Zeolith® technology that's applied to every cycle, which uses minerals that heat up when they come in contact with water. This clever function dries everything to perfection - from plates and pans to all plastic items.

Efficient Dry

Efficient Dry automatically opens your dishwasher door, offering better drying results compared to a closed door (after 30 minutes). Select this feature via the Home Connect app, available on all programmes except pre-rinse and machine care.

C) SpeedPerfect+

Our SpeedPerfect+ option reduces programme times without compromising on quality. So you still get hygienically clean and dry dishes but the duration of the cycle* could be reduced by up to half the time - ideal for busy households and entertaining. *Except: Prewash, Express 45° and Express 65° programme

•]

Place Settings

A selection of our dishwashers will hold up to 14 place settings in one load - perfect for larger households.

Self-cleaning filters

Self-cleaning filter system, with spray arms designed to direct water at the filters on every rotation.

Please note, self-cleaning filters are designed to keep filters clear during the washing cycle. Regular filter cleaning and maintenance is still recommended.

Dosage Assist

Get the most out of your detergent with Dosage Assist; a small area at the front of the top basket that catches the tablet when it's released during the cycle. It controls how the tablet is dissolved for optimum performance.

Our 45cm models feature a twin spray arm in the top basket to ensure perfect water coverage every time.

Active Water

whether they are on or off, especially on fully-integrated models where there is no visible control panel. The Time Light indicates the programme status and time remaining onto any floor

surface.

Time Light

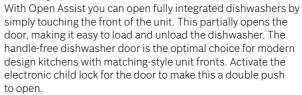

Coloured light beam projects onto the floor when the machine cycle is started, and turns off when finished.

Emotion Light

ights up the dishwasher cavity with 2 white LED lights.

Door Open Assist

Dishwashers 92 93

Vario Hinge.

The innovative Vario Hinge system is the optimal solution for challenging built-in dishwashers. In kitchens with a low plinth (<90mm) and extra long furniture fronts, the door and appliances might collide into each other. With Vario Hinge, the furniture front slides up so the door opens perfectly without collision. This ensures perfect design of a fully integrated kitchen. Vario Hinge is available in Series 4, in 81.5cm height

Grey touch control with LED display

Black toggle control with LED display

Machine care.

Your dishwasher will help look after itself with this smart function. Optimising the water and energy consumption, it works on a short run time of 80-90 minutes at high temperatures. It eliminates lime and grease deposits inside the dishwasher and works with a standard machine-care detergent. On selected Series 8 and Series 6 models, it will even remind you to run the programme every 30 cycles.

Whisper quiet washing.

Bosch dishwashers are amongst the quietest in the world. With the revolutionary **Eco Silence Drive**[™] there are dishwashers in the range which operate as low as 40 decibels, when the Silence programme is selected.

10 year anti-rust warranty.

Our appliances are made from top quality materials and in addition to our standard appliance warranty, we provide a free of charge warranty against rusting-through of the dishwasher's inner cavity.

³Water consumption in litres/operating cycle (using Eco programme)

⁴Duration of Eco programme

We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmo/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information. Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to 3rd screwed joint. Data valid in this table as of April 2023. Subject to modification without prior notice.

¹On an energy-efficiency class scale from A to G

 $^{\rm 2}$ Energy consumption in kWh/100 operating cycles (using Eco programme)

³Water consumption in litres/operating cycle (using Eco programme)

⁴Duration of Eco programme

⁹We would recommend our dishwashers are connected to the mains water supply where possible. However, they may also be connected to an external water softener as long as the water softener produces softened water of less than 1.1 mmo/litre (7.0°e) and the water softener in the appliance is turned off. Please contact product advice for further information. Water pressure required: 0.5-10 Bar. Flow rate: 10 litres per minute. Inlet valve connected directly to %" screwed joint. Data valid in this table as of April 2023. Subject to modification without prior notice.

Installation tips

Dishwashers

Integrated dishwashers

Energy and water-efficient with outstanding performance, Bosch integrated dishwashers quietly do all the hard work for you behind closed doors. These models can be built under a worktop or sink drainer, between two units or at the end of a run of units. A furniture door is mounted on the appliance door so that the dishwasher is indistinguishable from other kitchen cabinets. Choose from full size 60cm wide, or slimline 45cm wide.

Built-in dimensions (60m wide)

If you have a recess height of 81.5 – 87.5cm, plan for an 81cm dishwasher. The appliance's feet may be screwed out to a total height of 87.5cm. Or, if you have a recess height of 86.5 – 92.5cm plan for an 86cm dishwasher. The appliance's feet screw out to a total height of 92.5cm.

Introducing the Bosch refrigeration range

Save more, waste less. Our range of freestanding fridge freezers are packed with innovative technologies to keep your food fresh for longer, so you'll throw out less and save on your weekly shopping bill.

To help you choose the right appliance, we have divided them into the four ranges below.

Cutting-edge design meets advanced technologies. All models in our Series 8 range are packed with features that save valuable time, effort and money - perfect for modern, busy households.

All models in our Series 4

range combine practical

features with Bosch build

Series 8

Series 4

quality.

Our Series 6 range of appliances combines efficient performance with convenient storage and superior food preservation.

Series 6

Built for optimal food storage, the Series 2 refrigeration range is just as practical as it is value for money

Series 2

Model shown: KIN86VSE0G

Refrigeration functions explained.

× No Frost

Never defrost again, thanks to perfect protection from ice formation that saves time and effort.

Low Frost Low Frost

Defrost less often thanks to lower ice formation, saving work and energy.

Big Box

An extra-deep frozen food drawer makes stacking frozen foods containers or large frozen items like a Christmas Turkey or pizza boxes easier.

Multi Box

Multi Box

Transparent drawer with wave bottom, ideal for the storage of fruits and vegetables.

Super Cool

Activating the Super Cooling function before you go shopping lowers the temperature for a short period, so your fresh shopping is kept at the right temperature.

Super Freeze 舉

Safety Glass

Strong glass shelves ensure heavier items can be stored safely.

Easy Shelf Access

Multi Airflow *

cooling times are reduced.

Lock in the freshness.

VitaFresh

With VitaFresh, you'll be able to store your fruit and vegetables safely to lock in the freshness. And with an adjustable humidity setting on the drawer, you'll be keeping your fresh food in a perfectly controlled environment.

There are two drawer solutions; you'll either find one big drawer for fish and meat or two drawers, one for fish and one for meat. All with a temperature regulating slider which lets you lower the temperature up to 4°C lower than the rest of the fridge.

VitaFresh^{plus}

The Series 6 fridge freezers help you to live healthier. They not only offer you plenty of room for fresh foods, drinks and even big pots and bowls, but also the technology to store them optimally.

The VitaFresh plus freshness system guarantees ideal storage conditions at any time and ensures that fish, meat, fruit and vegetables stay fresh for longer. This makes our Series 6 fridge freezer not only optimal for your food, but also for yourself.

VitaFresh plus models have the added benefit of a convenient push button for humidity control.

Refrigeration 104 | 105

Easy-to-clean magnetic door seals The magnetic door seals on all of our refrigeration ranges are removable, making them easy to clean and/or replace when necessary

VitaFresh^{pro}

The Series 8 fridges feature our best freshness system VitaFresh pro. It keeps food fresh for longer with temperatures from -1°C to +3°C while maintaining the perfect humidity level

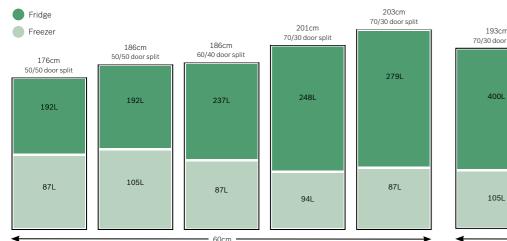

This combination of temperature and humidity helps you to protect all the aromas, essential nutrients and valuable vitamins in your fresh food. Hence, it's easier than ever to maintain a healthy diet with fresh fruit and vegetables every day.

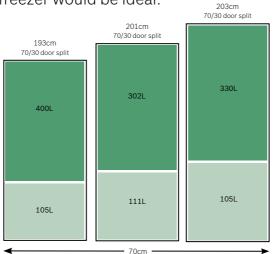

Freestanding single-door cooling

Select the right fridge freezer for you.

Height, width and fridge freezer split.

Our fridge freezer options are tailored to suit every family household's needs, so you can choose your appliance to ensure this. For those who shop little and often, try a smaller capacity fridge and freezer which doesn't impact on space. If you have a busy household and do a full weekly shop, a spacious 70/30 fridge freezer would be ideal.

Controlling your appliance.

Across the range of cooling appliances, there are different ways you can control the temperature inside your fridge freezer. Below are the different variations:

(touch control)

Exterior touch control (digital control)

Interior LED button control

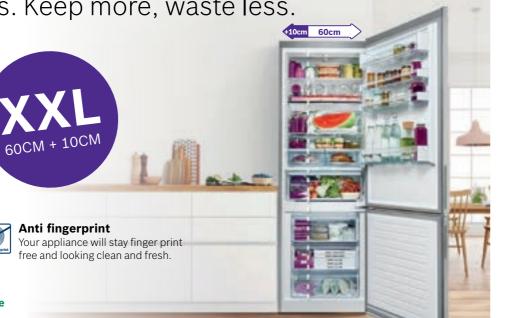

(freezer only)

The XXL fridge freezers. Keep more, waste less.

The Bosch XXL fridge freezers are

extra-large, providing much more space for your food. Their impressive refrigeration has features such as full flexibility of all safety glass shelves which are particularly easy to use, thanks to the smooth pull-out mechanism

Across the range of 70cm-wide and 86cmwide models include a **Big Box** freezer drawer, for the practical stacking of frozen food containers or large frozen items and the VitaFresh function which ensures food is kept fresh for longer - thanks to extra low temperatures for fish and meat, and adjustable humidity for fruit and vegetables.

Built-in single-door cooling

Select the right model for your kitchen.

Built-in fridge freezers blend

seamlessly into your kitchen

cabinets, making it easy to

access your chilled food, and

still provide plenty of storage for

your frozen goods. Select from

a variety of options to suit your

needs for either larger fridges or

Built-in fridge

Built-in fridges integrated into your kitchen cabinets. Add to the expanded space you have for keeping your chilled food fresh

Hinges to fit in with your kitchen.

Fixed hinge

freezers

Fixed hinges allow heavier furniture doors to be fitted to the appliance, ideal for kitchen cabinets made from heavier hard wood. This also allows the door to be open at a wider angle, making the whole fridge cavity easily accessible.

Sliding hinge

Sliding hinges are designed for integrated kitchens and are designed to sit between the appliance and the kitchen furniture, which is secured by a number of brackets. As you open the furniture door, the appliance door also opens, thanks to the series of brackets.

Quietly does it

As there could be many small and larger hands opening and shutting the fridge door, it's nice to know that we've integrated Soft Closing doors in many models - so doors don't get left open accidentally

Refrigeration 106 | 107

Built-in freezer

Bosch has a wide range of builtin freezers to suit every kitchen size. From tall upright freezers to compact under-counter models, all Bosch freezers are built to maximise storage space and minimise energy consumption.

Built-under fridge and freezer

Our built-under fridges and freezers are ideal for those limited on space within the kitchen. Under-counter cooling solutions will allow you to have easy access to your chilled food, all while being discreetly tucked behind the door.

Multi-door cooling

TO FIND OUT MORE ABOUT OUR BOSCH MULTI-DOOR FRIDGE FREEZER RANGE, PLEASE SCAN THE QR CODE PELOW BELOW

Sleek, stunning design, best-in-class freshness system, XXL fridge capacity for effortless organisation and innovative features are designed to keep your food fresh for longer.

Choosing the right model for your needs.

Model shown: KAG93AIEPG

2 door

- ✓ Classic side by side design: easy to store and access your shopping
- ✓ Multi Airflow: innovative technology that ensures equal temperature throughout the fridge cavity
- ✓ No Frost: no more defrosting!
- ✓ External ice and water dispenser: ice-cold water at the touch of a button

Model shown: KFF96PIEP

3 door

- ✓ Wide not deep: by halving the door size, you can get a big capacity without the door cutting into your kitchen walkway
- ✓ VitaFresh pro: to store your fruit and veg fresh for longer
- ✓ Effortless Access: designed with 3 doors to give you easy access
 - ✓ Internal Water Dispenser: keeps the appliance exterior looking seamless
 - ✓ Automatic Ice Cube Maker: instant ice for those hot summer days

Model shown: KFN96APEA

4 door

- ✓ XXL capacity: easily store your weekly shop
- ✓ VitaFresh technology: keep your fruit and veg fresh for longer
- ✓ No Frost: say goodbye to defrosting!
- ✓ Super storage: the freezer cavity comes with two No Frost Big Boxes - ideal for stacking meal prep containers

Wine coolers

Your own personal wine cellar.

The range of stylish Bosch wine coolers blend seamlessly into your kitchen, while constantly keeping your red and white wine perfectly stored and at an ideal temperature.

- 2 temperature zones: ranging from 5°C to 20°C
- ✓ **Oak shelves:** With telescopic rails
- ✓ Interior LED light bar: With on/ off function for presentation

Small appliances

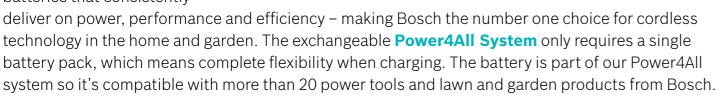

Vacuum cleaners

Bosch looks back on over 80 years of vacuum cleaner experience, and more than 50 years of battery expertise. The result: innovative technology that makes cleaning your home as easy, and enjoyable, as possible. Performance, convenience, or usability, the right vacuum cleaner from Bosch exceeds even the highest expectations.

> Model shown: BCS712GB

Today, Bosch's batteries are unrivalled, offering compact and lightweight long-life batteries that consistently

TO FIND OU MORE ABOUT OUR VACUUM CLEANERS RANGE, PLEASE SCAN THE QR CODE BELOW

Our range of vacuum cleaners

Whether you need your vacuum to be flexible enough to tackle those hard to reach places, quick charging to use when time is tight, or powerful enough to take on your whole house from floor to ceiling, the Bosch range of vacuums has a model to suit you.

The Unlimited

The never ending one. Works on so many levels.

Provides the perfect combination of high performance and flexibility. Powered by the Power for all Alliance the battery is exchangeable and is one of the largest cross-brand 18V battery systems in the market. Thorough but flexible vacuuming with the most compact and lightest cordless multi-use handstick the Unlimited range guarantees effective cleaning on all kinds of floors.

The Athlet

The powerful one. Less effort, with more cleaning power.

Offers superior power output, meaning powerful suction on all surfaces, allowing you to tackle the toughest household cleaning tasks with ease. With a range of power options, the Athlet charges in just 6 hours, ensuring runtime and performance is at hand just when you need it.

Bosch Motor Technology -Power made in Germany.

At Bosch we design motors to make a difference. And because we not only expect a vacuum cleaner to deliver optimal results but also to be long-lasting, we guarantee you high performance with our free 10 years motor warranty*.

*Terms of warranty can be found on bosch-home.co.uk

138 | 139

The Flexxo

The flexible one. Perfect for those hard to reach spaces.

Convenient, fast and thorough, the cordless Flexxo 2in1 handheld and handstick vacuum cleaner is lightweight and compact.

Making life easy through innovative technologies

Small appliances

Coffee machines

Select your coffee intensity at the push of a button.

The TASSIMO FINESSE coffee machine enables you too select a more intense drink simply with a 3 second press of the start button for IntensityBoost to provide a stronger drink. Enjoy a huge choice of over 50 drinks, including big-brand favourites like Costa, L'Or and Kenco, to enjoy at home with family and friends. And once enjoyed your Tassimo pods are easy to recycle using the free Podback recycling service.

INTELLIBREW barcode reader.

Thanks to patented barcode technology INTELLIBREW[™], the drink specialities from Tassimo are always perfectly prepared with the correct amount of water, at the right temperature and for the right brewing time.

Integrated descaling system - for a long TO FIND OUT MORE ABOUT OUR FILTER COFFEE MACHINE RANGE, PLEASE appliance life and excellent taste. Auto-off - safe and energy-saving, as the device switches off automatically after 40 minutes of keeping it warm. **Removable water tank** – easy and quick to fill directly under the tap. **DualHeating System** BOSCH Coffee must be brewed at the correct temperature to ensure that the full aroma can develop. Two powerful sensor-controlled heating systems ensure that the brewing water is heated to the ideal temperature of 92-96 °C. The second heating system keeps the coffee warm at 80-85 °C.

Food preparation

Our multi-use stand mixers, food mixers and processors are packed with innovative, labour-saving technology so you can chop, blend, shed, mix and whisk your way more quickly through your food preparation task.

BOSCH
